CREATING TIMELESS MEMORIES

Have your partner's and your own completely unique fingerprint impressed on the outside or inside of your wedding bands.

Identity tags and pendants may also be branded in the same manner - each piece totally exclusive and personal to only you and your partner.

An impression of the fingerprint to be transferred is easily made using the complete kit supplied - which includes a protected ink strip, card and envelope.

On completion of the order, fingerprint examples are destroyed.

Not all pieces are able to accept this process - we will advise as to which surfaces are the most suitable.
